

THE ILLUSION SERIES

One New Line of Fixtures. Two Mounting Choices.

The new Illusion Series from Innovation gives you two mounting choices, flush or surface, in one line of fixtures. The surface mount design incorporates a unique, magnetically operated latch, giving the appearance there are no fasteners or key operated mechanisms needed to open the stations.

Make a Lasting Impression.

From their unmatched quality and appearance, to their innovative locking mechanism, the Illusion Series from Innovation gives you another option for your next project to create a lasting impression guaranteed to stand out from all the rest.

Choices. Quality. Solutions.

Please refer to our product catalog for available push button and metal options.

INNOVATION

The Key to Opening Your Surface Mount Illusion Fixture

The Illusion Series of fixtures is available in surface or flush mount configurations. The surface mount models feature a unique, magnetically operated unlocking latch that gives the appearance that there are no fasteners or key operated mechanisms.

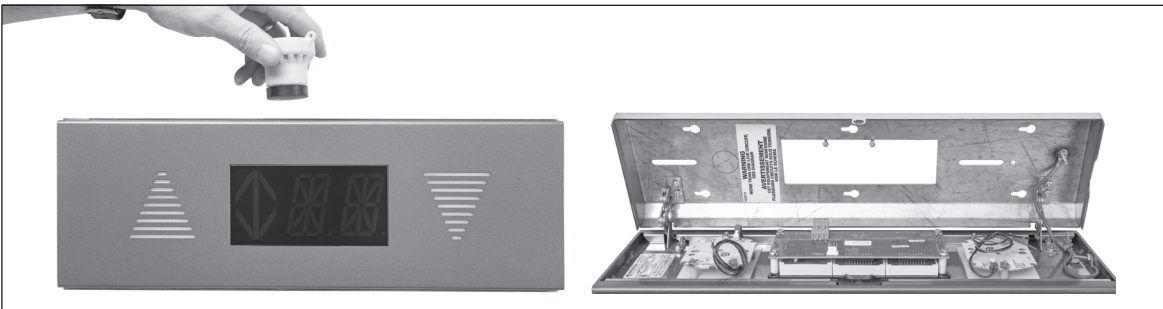

Each Illusion surface mount fixture comes with a special magnetic "key" for easy access.

NOTE: A rare earth magnet with 19 lbs. or greater pulling force is required if you are unable to use the supplied key that is shipped with each fixture.

The concealed latch will always be located on the left-hand side of vertically mounted fixtures.

The concealed latch will always be located on the top of horizontally mounted fixtures.
