

THE ULTRA SERIES

The Definition of Eloquence and Quality

The Ultra Series combines elevator fixture form with function to the highest degree. With the smooth, flowing lines of a finely crafted instrument coupled with solid, dependable operating features, the Ultra Series redefines elevator fixture looks and reliability.

Available in a wide variety of metal finishes, the Ultra Series features a side hinged, concealed latching operation that is simple to service and easy to install.

Whether your next project is a new job or you're retrofitting an existing facility, the Ultra Series will bring that special look and level of quality you expect from our industry leading designers and elevator professionals. Call or log on today for more information on the latest innovation from Innovation.

Choices. Quality. Solutions.
