

**Choices. Quality. Solutions.**  
**FAB SERIES**  
**Foot Activated Buttons**

**Hands-Free  
Call Buttons**

The FAB Series from Innovation and Monitor offers a complete line of hands free push buttons for hall or car passenger operation. These foot activated call buttons are for use when your hands are full, you don't want to touch the button or to accommodate passengers with special needs. Made in the USA, the FAB works in parallel with your existing buttons, are rugged, easy to install and built for years of reliable service.
