

Wiring Solutions from Innovation | VC

No worry. No wait.

With Vision 2.0 Solutions.

Tired of the hassle and time it takes to coordinate between your fixture and controller manufacturers along with the extra installation time it takes to get your elevator up and running? Simplify the entire process at no additional cost with Innovation|VC's Vision 2.0 prewired fixtures for your one source, industry leading prewired fixture solution.

With every Innovation|VC Vision 2.0 fixture order you can expect:

- Fixtures completely wired on the car station side with enough color-coded wiring to pull to the car top connection point
- Easy back tracing and troubleshooting point-to-point
- VC Vision 2.0 serial boards are stocked at Innovation for quick turnaround
- Each car station is fully tested prior to shipping
- Assembled in the USA

To make your next fixture order and installation experience painless while saving time and money, then count on Innovation|VC Vision 2.0 prewired fixtures for the streamlined

answer to your next new installation or retrofit project.

Choices. Quality. Solutions.
