

CLEANING INSTRUCTIONS FOR CLEAR SPRAYED OR PAINTED ELEVATOR FIXTURES

This elevator fixture has protective clear coat to resist corrosion

Elevator components may contain polycarbonate material.

WARNING

Do Not Use

Cleaning agents which contain ketones, benzene, methanol, toluene or alkaline or ammonia-based cleaning agents.

Recommended Cleaning Instructions:

1. Wipe the fixture with a cotton cloth and warm water before applying cleaning product.
2. Use a PH-neutral or slightly acidic cleaning product with ethylic alcohol, isopropyl alcohol or ethylene glycol.
3. Acceptable cleaners include Formula 409, Windex or Joy dish detergent.
4. Do not use dry cotton cloths or sponges.
5. Do not leave cleaning agents on for long periods. Remove with a wet cotton cloth and warm water.
